container. However, the preference is given to the aluminium containers with wooden boxes for safe handling of sample in transportation and proper sealing.

(b)The details of locations where octane test is being conducted by Public Sector Oil Companies are as follows :—

Bhopal, New Delhi, Chennai, Vadodara, Begusarai, Noonmati, Digboi, Mathura, Panipat, Midnapur, Faridabad, Bongaigaon, Sewree, Panewadi, Kandla, Mughalsarai,Tondiarpet,Trimpanam,Vizag, Budge Budge, Loni, Sanatnagar, Devangonthi, Managlore and Lucknow.

(d) Octane test is done only for petrol samples before release of products at the refineries. The samples of the same from the terminals/ depots are also monitored for octane testing. Since deterioration in quality of petrol with respect to octane is matter of concern, for market decipline it is justified to take the sample at petrol pumps for octane testing.
